DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 9 and 10, filed 9/19/2006, with respect to claims 40-42 have been fully considered and are persuasive. The Final Office Action of claims 40-42 has been withdrawn.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-9, 11-15, 18-26, 30, 33-34, and 40-42 are allowed because the prior art fail to teach or fairly suggest an excimer or molecular fluorine laser system as claimed in claims 1, 14, 30, and 40 especially an acousto-optical modulator with a pair of cylindrical lenses positioned on either side of the modulator, and a at least one opitcal element for changing the propagation of the beam positioned along the beam path between the MO and PA with a sensor for monitoring the pointing angle of the output beam and providing feedback to the optical element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
